

SAVOIR BEDS

Organic

Organic agriculture is a production system that sustains the health of soils, ecosystems and people while producing necessities such as food, clothing and materials for building. To acknowledge and celebrate its contribution, I looked to the patterns in nature, specifically in bamboo and hemp.

Waste Not, Want Not

If we do not waste what we have, we will still have it in the future and will not lack (want) it.

SAVOIR BEDS

Organic

Romanian hemp was chosen for the restrained elegance of its patterns achieved by using traditional Romanian fabric weaving and finishing techniques. Repetition of patterns in nature which is a reminder of the potential for sustainability and renewability of resources is further highlighted using symmetrical placement of Swarovski-affixed buttons which mimic rows of bamboo in a field and the sunlight that glimmers in its gaps.
